The Town of Green Mountain Falls has embarked on a strategic planning process to assess short- and long-term economic sustainability. Town officials are seeking assistance to identify sustainable funding options for the town in order to ensure that the service needs of the town's residents can be met in the near and long term. The Economic Sustainability Committee will make recommendations to the Town Board from a list of strategies identified in the previous process funded through grants provided by the Colorado Department of Local Affairs (DOLA) and the Pikes Peak Area Council of Governments (PPACG).
